

Letter of Recommendation

March 5, 2024

To Whom it May Concern,

Please accept my warm greetings. As the past West Division Logistics Manager for Commercial Metals Company (CMC), it is a great pleasure for me to provide this letter of recommendation for White Mountain Trucking.

Over the past 11 years, we've had the absolute pleasure of working side by side with White Mountain as both of our companies grew out of the desert. CMC Steel Arizona started production in late 2008 with volumes of significance coming online over the next 5 years. As our production increased, White Mountain partnered up with us to facilitate the growth. The leadership team of David Arbizu and Stephen Ray worked with CMC to customize their fleet to meet our needs.

Beyond the operational business side, White Mountain made a commitment and impact to the communities in the East Valley. Anytime CMC held a Fundraiser, Community Service or Charity Event – White Mountain was there by our side raising funds and giving peoples time to help. They've been a regular partner and contributor to Mesa House of Refuge, United Food Bank and Driver Appreciation events.

The combination of these business and community commitments led to White Mountain winning CMC's coveted National Carrier of the Year award for 2020. This award compares the impact of carriers across CMC's hundreds of facilities across the United States.

It is for these reasons that I highly recommend White Mountain Trucking as a partner for your future business needs. I have seen first hand their commitment as a partner and how they can add value to your existing business. Should you have any questions or need more detail, feel free to reach out to me directly.

Best Regards,

Leslie Adams

East Division Area Logistics Manager
